On the outside, it may just look like a red bush, but on the inside is the beauty. The color of the leaves are really nice when the sun hits it. But people litter around our campus so we have to do our best to keep our school beautiful.

Mid Pacific Institute is a college prep school for grades Pre-K & K-12. It is located in Manoa. The campus is covered with nature and beauty thanks to Manoa's weather.

Beautiful Campus Scenes: The Pond and Trees

Here at MPI, we have numerous places that have beautiful features. The pond by the football field is one example. By the pond, there's a red leaf bush. As shown in the pictures, you can notice the leaves are different colors, red, green, and a dark orange. It is an exotic place to just relax at the school. Since the school is so big, you have to walk a lot in order to see everything. Here at this bush, there is shade and a few tables to sit, relax, read a book, etc. Those are just a few things that the students do here. You can also stay around that area to watch home games (soccer, football, etc.) because it is a great view.

Approximately 828+ leaves

Everything has beauty, but not everyone sees it
